FREEDOM OF CHOICE There's a little something for everyone in SR Series II. From small combo vocal reinforcement to large club systems, from mobile DJ and recorded music repro-

### **SOUND REINFORCEMENT LOUDSPEAKER SYSTEMS**

A sound reinforcement system is the combination of microphones, signal processors, amplifiers, and loudspeakers in enclosures all controlled by a mixing console that makes live or pre-recorded sounds louder and may also distribute those sounds to a larger or more distant audience. In many situations, a sound reinforcement system is also used to enhance or alter the sound of the sources on the ...

1.1 This specification covers glass fiber reinforced polymer (GFRP) bars, provided in cut lengths and bent shapes and having an external surface enhancement for concrete reinforcement. Bars covered by this specification shall meet the requirements for geometric, material, mechanical, and physical properties described herein.
